

Northern Virginia Data Center (VA-2)

Situated on an 83-acre highly secure campus, VA-2 is the second of four planned campus data centers which will provide 1,000,000 ft² as the phased development rolls out. This facility offers 221,500 ft² of space and 36 MW of renewable power capacity in the heart of the world's largest data center and network ecosystem. The data center offers customers exceptional levels of energy-efficiency as well as a diverse and easily accessible ecosystem of cloud, network and other service providers.

“ IRON MOUNTAIN’s physical site security, quality of service, customer support, and heritage in managing confidential data, allows nec[®] to position our sap hosting solution as a new level of cloud service for sap[®] public sector clients. ”

NEC

Why choose VA-2?

- > **Scale**
